4. Among the line-item vetoes were significant cuts to the Legislative Branch, including reductions to personnel funding, which has jeopardized operations and resulted in the loss of 28 positions essential to serving the Navajo people; and
5. The Judicial Branch was also severely impacted, limiting its ability to provide court services, peacemaking, probation, and judicial oversight, which are critical to maintaining justice and order across the Navajo Nation; and

Resolution No: KY26-10-014

SUPPORTING THE REQUEST TO THE NAVAJO NATION DEPARTMENT OF TRANSPORTATION AND THE BUREAU OF INDIAN AFFAIRS ROADS DEPARTMENT TO REHABILITATE NAVAJO ROUTE 59 BETWEEN MILEPOST 16 TO HIGHWAY 160.

WHEREAS,

1. Pursuant to 26 N.N.C., Section 3(A), the Kayenta Chapter is a duly recognized certified chapter of the Navajo Nation Government, as listed at 11 N.N.C., Section 10; and
2. Pursuant to 26 N.N.C., Section 1 (B), the Kayenta Chapter is vested with the authority to review all matters affecting the community and to make appropriate correction(s) when necessary and make recommendation(s) to the Navajo Nation and other local agencies for appropriate action(s); and
3. The Kayenta Chapter is completely aware of the roadway conditions on the Navajo Route 59 between Highway 160 and Rough Rock. The chapter has a crisscross of school bus routes from Rough Rock Community School, Kayenta Unified School District, Kayenta Boarding School, and the Chilchinbeto Community School. Poor road conditions significantly impact students' attendance, performance, and dropout rates, limiting their educational opportunities and outcomes, as the 2017 U.S. Government Accountability Office reported. In February of 2022, the Northern Arizona Council of Government (NACOG) was instructed to perform its studies. The chapter further understands that transportation challenges can lead to increased absenteeism, lower academic performance, and higher dropout rates among rural students; and
4. The Kayenta Chapter request that the NR 59 be assessed and included in the rehabilitation of the route because it is the main corridor used by many of our students, residents, and visitors and it's the shortest route to Window Rock and other places. It is a main route that tourists, local residents, commuters, commercial trucks, and emergency transports use daily year-round; and
5. This pivotal road runs along the Black Mesa region. The area receives heavy snow and runoffs that adversely affect the pavement. Some of the distresses and failures that are occurring are (1) block cracking, (2) longitude cracking, (3) edge cracking, (4) slippage cracks, (5) potholes, (6) depression, (7) rutting and shoving, (8) upheaval and raveling, (9) undercutting by improper use of equipment on the shoulder, and (10) deep dips in a couple of areas. All these defects make the route unsafe, and it must be rehabilitated.

NOW THEREFORE BE IT RESOLVED THAT:

The Kayenta Chapter hereby supports the requests to the Navajo Department of Transportation and the Bureau of Indian Affairs Roads Department to perform an assessment of Navajo Route 59 in the Chilchinbeto region as a pivotal analysis for highway improvement and to be inclusive on all

recommendations and objective of the Navajo Department of Transportation and the Bureau of Indian
Affair Road Department to rehabilitate and enhance a safe route.

REQUESTING THE NAVAJO NATION DEPARTMENT OF TRANSPORTATION AND THE BUREAU OF INDIAN AFFAIRS- WESTERN NAVAJO AGENCY-BRANCH OF TRANSPORTATION TO CONDUCT A DRAINAGE STUDY ON BIA ROUTE N6486 AT PARRISH CREEK WASH CROSSING

WHEREAS,

1. Pursuant to 26 N.N.C., Section 3(A), the Kayenta Chapter is a duly recognized certified chapter of the Navajo Nation Government, as listed at 11 N.N.C., Section 10; and
2. Pursuant to 26 N.N.C., Section 1(B), the Kayenta Chapter is vested with the authority to review all matters affecting the community and to make appropriate correction(s) when necessary and make recommendation(s) to the Navajo Nation and other local agencies for appropriate action(s); and
3. BIA Route N6486 is an earth dirt road located within the boundaries of the Kayenta Chapter; and
4. Environment and climate erosion factors, such as heavy rain, rain intensity, rain duration, and vegetation, play a major role in erosion in unsurfaced roads; and
5. Multiple attempts have been made in the past to replace damaged culverts at the Parrish Creek Crossing; and
6. A drainage study needs to be conducted for erosion control and put in drainage structures such as a box culvert.
7. The most recent rainstorm caused damage to the recently replaced culverts; and
8. The Navajo Nation Department of Emergency Management, the Navajo Nation Department of Transportation, and the Bureau of Indian Affairs- Western Navajo Agency Branch of Transportation were all notified of the road damage at Parrish Creek Crossing.

NOW THEREFORE BE IT RESOLVED THAT:

The Kayenta Chapter hereby requests the Navajo Nation Department of Transportation and the Bureau of Indian Affairs–Western Navajo Agency–Branch of Transportation to conduct a drainage study on BIA Route N6486 at Parrish Creek Wash Crossing, with reference to Exhibit “A,” pictures of N6486 at Parrish Creek Crossing. Furthermore, the Kayenta Chapter strongly emphasizes the need for the design and construction of a more permanent and resilient drainage structure, such as a box culvert or similar reinforced system, to replace the existing standard culverts that have repeatedly failed or washed out during heavy rain events. This improvement is critical to ensure long-term roadway stability, public safety, and reliable community access.
